

LUBOS TOMANDL

FRONTEND DEVELOPER BERLIN, DE

lutomandl@gmail.com | +4915208923847

www.linkedin.com/in/lubos-tomandl | <https://github.com/lutomandl>

Quickly learning and talented Frontend developer with over two years of experience with React, Svelte, Typescript, Vanilla JS, HTML and (S)CSS. Previous six years of experience in the software engineering industry as a business analyst. Solid knowledge of software development process, experience with working in an agile environment, great team player. Love living in Berlin, drinking great coffee, reading interesting books, listening to old LPs, and building Lego with my son.

EXPERIENCE

Frontend Software Engineer **@Cognizant Netcentric**

March 2022 - Present

- Developing extensive frontend application for a major German NGO using Vue.
- Owned development of complex React-based components for major automotive company's website.
- Investigating of unknown parts of codebase (legacy from different company) and introducing findings to the team.
- Developed internal e-commerce platform - React SPA using GraphQL API of the Adobe Commerce solution (Magento).
- Developed HTML page to play a video on mobile devices in a customer's showroom.
- Attendance on pre-sales meetings with the client, discussing the requirements and communicating feasibility.
- Technologies: React, TypeScript, SCSS, Tailwind, GraphQL, HTML, CSS, JavaScript, Vue
